

North Whidbey Fire and Rescue (NWFR) has up to three (3) SkillBridge internships twice a year with the internship periods aligned to either the firefighter I & II academy or the EMT academy periods. Interns must begin in January and end in June for the fire academy or begin in July and end in December for the EMT academy. Because these academies are only offered during these periods, the SkillBridge internship must fall into these time periods.

The goal of NWFR's SkillBridge Program is provide military personnel that are transitioning to civilian life with the education, training, and skills to pursue a career as an EMT, Firefighter or EMT/Firefighter. For more information contact Chief John Clark, chiefclark@nwfr.org
